## THE PILL KILLS TRUTH

Denouncing the U.S. Supreme Court's *Griswold v. Connecticut* decision, which decriminalized poison in the form of a pill.

Join American Life League in a nationwide Day of Action exposing the birth control pill and similar products.

- The pill was built on lies. Women were used as guinea pigs without consent in testing. Three died in clinical trials; their deaths were ignored.
- **Lie:** The pill cannot cause abortions. **Truth:** It is responsible for millions of pre-implantation abortions.
- **Lie:** The pill is very safe. **Truth:** It increases the risk of blood clots that cause stroke, heart attack, and even death.
